Practice 2

Practice 3

The screenshot shows a Linux desktop with a dark theme and a cityscape background. A terminal window is open, displaying the execution of a script named `usr_var.sh`. The script sets variables for a user named 'bob' and prints their information in a formatted table. The desktop includes a dock with various application icons and a system status bar at the bottom showing the date and time as March 17, 8:09 PM.

```
1 #!/bin/bash
2 name="bob"
3 age=32
4 email="supercoolgamer@gmail.com"
5 phone=123-321-1234
6
7 echo -e "\tusers Information"
8 echo -e "\t-----"
9 echo -e "\tName: \t$name"
10 echo -e "\tAge: \t$age"
11 echo -e "\temail: \t$email"
12 echo -e "\tphone: \t$phone"
```

```
emp@cis106:~$ bash scripts/usr_var.sh
users Information
-----
Name:    bob
Age:     32
email:   supercoolgamer@gmail.com
phone:   123-321-1234
emp@cis106:~$
```
